Dear Sir/Madam

This is a reference for the company headed by Mr. Israel Noko, NPI Governance Consulting, which I understand is being considered for a contract involving consulting services in the area of BBB-EE. The Canadian High Commission Trade Office is very familiar with Mr. Noko personally from his having worked with us as a Trade Commissioner for nine years. During that time, he proved himself to be a pro-active and top deliverer of services to Canadian companies who were our clients. Since his departure from our Office, he has worked in a number of different businesses but the one area in which he has become a solid practitioner is BBB-EE where he has discovered his passion and his calling.

Our office refers Canadian companies seeking guidance to Mr. Noko's company, by including him on our short list of recommended providers of BBB-EE consultancy services. I have personally heard satisfied clients of NPI express their gratitude for the service and attention he has brought to their individual situations.

I know Mr. Noko to be a professional who takes his responsibilities seriously. His role as head of the association for BEE consultants is further testimony of his commitment and the high regard in which he is held in this industry.

I am available for further discussion if that would be useful.

Sincerely,

Barbara Giacomini
